

Mobile

At Honeywell, we offer a broad range of mobile video security products to meet the needs of our customers. From subways and light rails, to school and transit buses, to ferries and taxis, Honeywell's surveillance systems are specifically designed to secure people and their property while on the move. It's security in motion. And Honeywell is committed to building a world that's safer and more secure...whether in the air, on the ground, or at sea – we've got you covered.

THIS SECTION INCLUDES:

Recorders

Cameras

Accessories and Kits

Mobile

Organizations around the world utilize video surveillance to protect commercial buildings, schools, prisons, retail stores, etc. But are they sure they're protecting everything – like the vehicles that transport people to and from these facilities?

At Honeywell, we offer a broad range of mobile video security products for just about every vehicle around. Honeywell's digital recording systems, cameras and receivers, including our state-of-the-art GPS solution are protecting people with security in motion.

Benefits:

- Durable products that stand up to the harsh realities of vehicle security—including temperature and vibration controls
- User-friendly mobile products that offer uncompromising video clarity in a 'set-and-forget' system
- Reliability from a proven partner of choice with a world-class line of mobile products
- Peace of mind by providing increased safety for passengers and drivers

RECORDERS

Honeywell offers a full range of analog and digital mobile video recorders. With digital video and data recorders, Honeywell's mobile solutions are making the gathering, analyzing and storing of video data an efficient process. And for customers seeking an analog solution, Honeywell's VCR is an economical choice that doesn't require compromising features, functionality, or durability.

HTRD400 Series

Mobile Digital Data Recorder

- 4 video and audio inputs
- Wireless LAN/WAN access
- Images record with vehicle ID, time and date, camera name and up to 8 status inputs
- Alarm mode starts recording rule based events
- Patent pending vibration reduction system
- User-friendly software to search print, distribute and archive video and audio files
- Store from a single or a clip of audio and video to a PC-based hard drive or peripheral storage device
- Play video as a self-contained executable via PC
- Total digital system—no degradation due to analog to digital or digital to analog conversions

HTRD100 Series

Mobile Digital Video Recorder

Honeywell's HTRD100 Series offers an easy way to upgrade from analog to digital. With the ease and convenience of a VCR, the HTRD100 Series is an industrial-grade digital recorder that features a built-in switcher that is housed in a tamper and impact resistant enclosure. This is the preferred base for an effective video system.

- Removable hard drive
- 5 status inputs with on-screen display including a built-in second camera switch
- Video includes record of vehicle speed
- Analog and digital playback
- No computer needed for set-up – similar to VCR-like functionality
- Activates with ignition/option for post recording (up to several hours) even after the ignition has been turned off

HTR62

Mobile VCR Video Recorder

The HTR62 is an excellent introductory product for companies new to the mobile video surveillance market. With its easy-to-use interface and simple installation process, the HTR62 can be fully operational within a short period of time. Additionally, the HTR62 offers versatility—enabling two cameras to be utilized with an industrial-grade VCR that is housed in a tamper resistant enclosure.

- 2 channels of audio
- 5 status inputs (e.g. brakes, stop lights, turn signals and stop arm)
- Built-in speed sensor
- Flexible mounting, vertical or horizontal
- Improved vibration resistance
- Front mounted video and audio output jacks
- Easy programming with remote control included — no switches to set, no removing from platform
- Option to stop recording at the end of tape or rewind to the beginning and continue
- Activates with ignition

HTR62

FareView® Series

Mobile Surveillance System

Honeywell's FareView Series system is the most advanced digital mobile surveillance system for the taxi industry. Its compact, discreet camera records still images of events or passengers. The images are time and date stamped along with the Vehicle Identification Number and stored securely in the recorder unit, which is installed elsewhere in the vehicle.

- Captures images in complete darkness – built-in infrared illuminators
- 2 camera inputs
- Secure time and date stamp, including vehicle identification and “Chain of Evidence” electronic watermark and recorder unit identification
- Removable image storage for backup, archiving or upgrading
- Driver activated recording without external power
- Camera aiming cross-hairs
- Multiple image printing
- Power-save mode to minimize battery drain

CAMERAS

Honeywell offers a full range of analog and digital mobile cameras. A high impact, tamper resistant digital camera, Honeywell's HTCD50/52 digital camera offers higher quality images than traditional analog cameras. And our analog Day/Night camera, HTC70 Series, is useful in all light conditions. We also offer an analog dome camera, the HTC29 angle dome that's flexible enough for use in a wide variety of locations.

HTCD50/52 Series

Mobile Digital Camera

The HTCD50/52 Series digital camera offers a high-impact, tamper resistant digital solution with higher quality images than traditional analog cameras. The HTCD50/52 Series is compatible with the HTRD400 Series of digital recorders

- Easy to install — designed to be mounted on a bulkhead, wall or ceiling
- User selectable compression, resolution and frame rates
- Concealed wiring
- No assembly required and pre-programmed focus
- Variety of configurations including B/W or color, audio/no audio, lens sizes

HTC70 Series

Mobile Camera

Honeywell's HTC70 Series offers an analog Day/Night camera that is useful in all light conditions encountered in vehicles. The HTC70 Series is capable of providing the necessary images for both analog and digital systems. This camera is compact in design, which allows for easy mobility and placement in and around the vehicle.

- Day/Night camera captures images in all lighting conditions – even in complete darkness
- Optimized audio bandwidth
- Lightweight, compact design
- Easy to install – no assembly required and pre-wired and pre-focused
- 8 built-in infrared illuminators
- Swivel mount bracket for quick and easy pan/tilt camera adjustment
- Compact design mounts on any flat surface, including a ceiling or bulkhead
- Compatible with:
 - HTR62, Mobile Video Recorder
 - HTRD100 Series, Mobile Digital Video Recorder

HTC29 Series

Angle Dome

Honeywell's HTC29 Series angle dome camera offers a high impact dome and housing to reduce the risk of tampering. With audio and black and white or color capabilities, the HTC29 camera is compatible with both VCRs and mobile digital recorders. The HTC29 Series is flexible enough to be used in a wide variety of locations.

- Unobtrusive, small enclosure
- Easy to install
- 3-D gimbal for maximum lens rotation
- Compatible with:
 - HTR62 Mobile Video Recorder
 - HTRD100 Series, Mobile Digital Video Recorder
- Variety of configurations including B/W, color audio/no audio, lens sizes
